8 Port HDMI Splitter

Details correct on: 03/12/2014

Notification	
Product Code	HD-SP208
Short Description	HDMI 8 Port Splitter v1.3b
Full Description	The HD-SP208 allows you to connect the output from a single High Definition source to eight displays. For example, a set top box, DVD player or game console to eight separate HDMI equipped displays. Each splitter unit's output can achieve a total distance transmission of a HDMI signal of 10 metres (5 metres before and 5 metres after splitter). Although possible, it is not recommended to use a cable longer than 5 metres before splitter.
